

# Mantra Manual

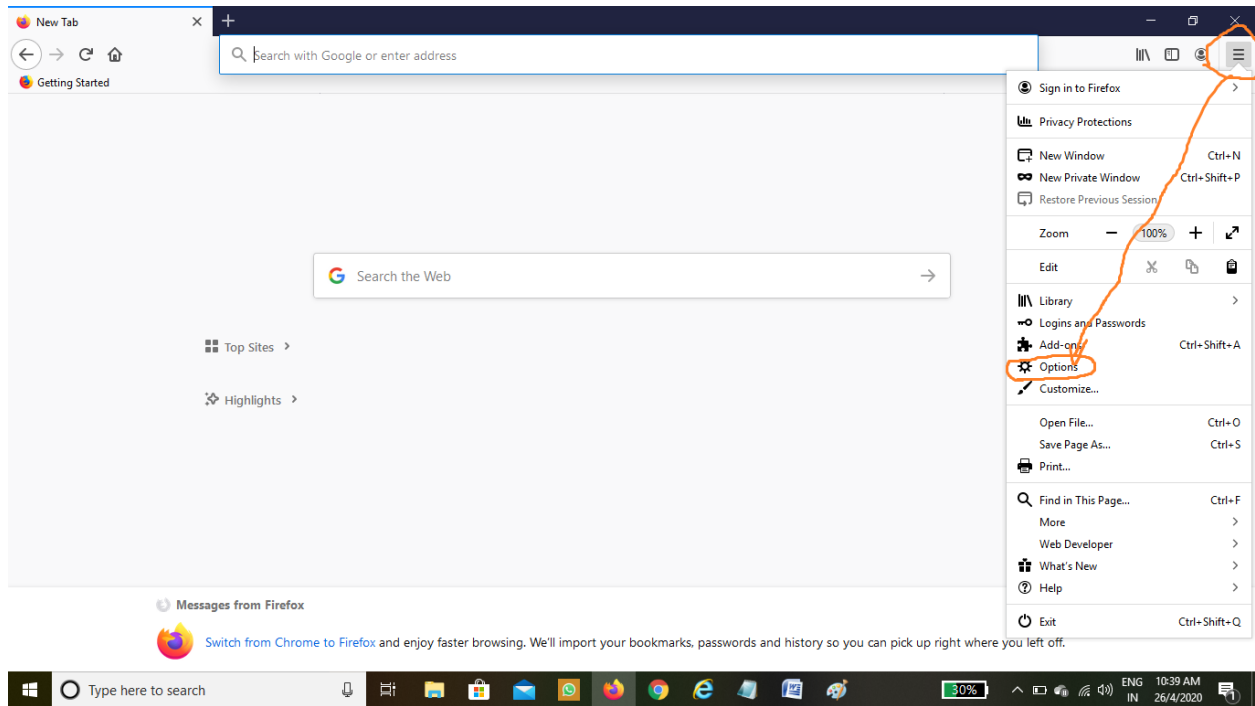

Please type the URL : <https://download.mantratecapp.com/Forms/DownLoadFiles> and download below mention Mantra driver software from here and simply install it in your system.

1. [Download MFS100 Driver - Windows XP/7/8/10](#)
2. [Download MFS100 RD Service](#)

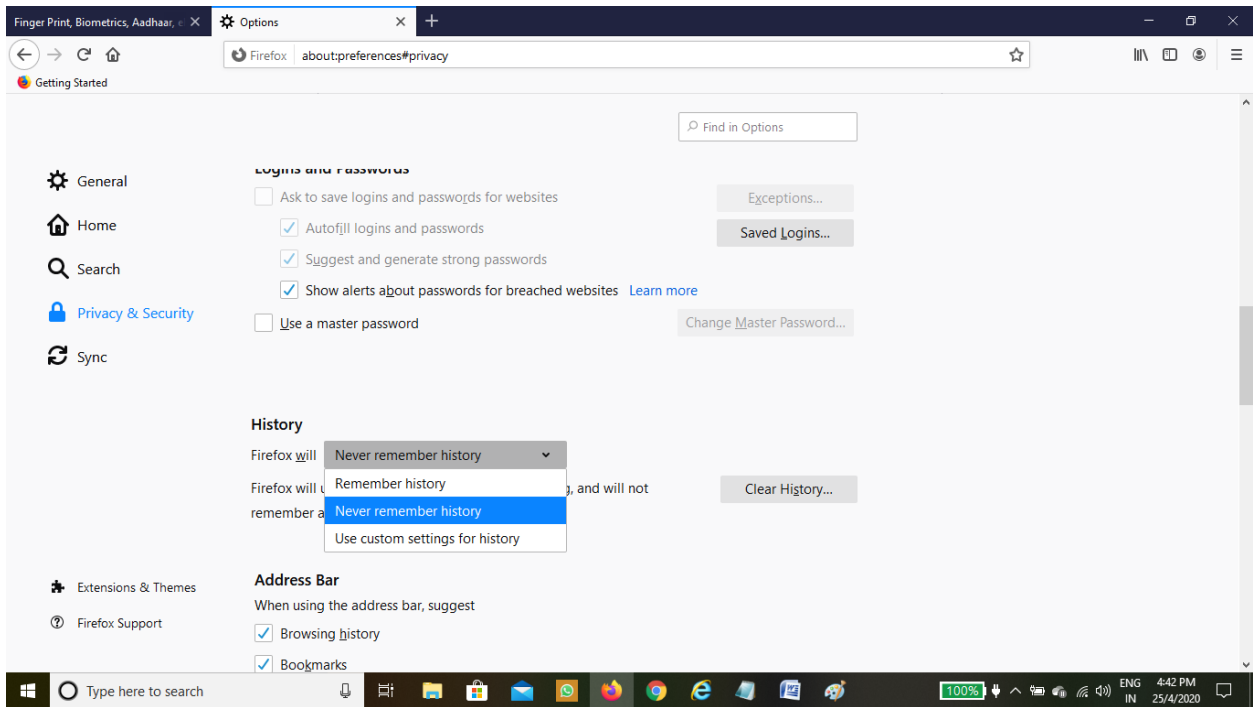

After successful installation of above two driver software, Just restart your desktop/laptop to take effect.

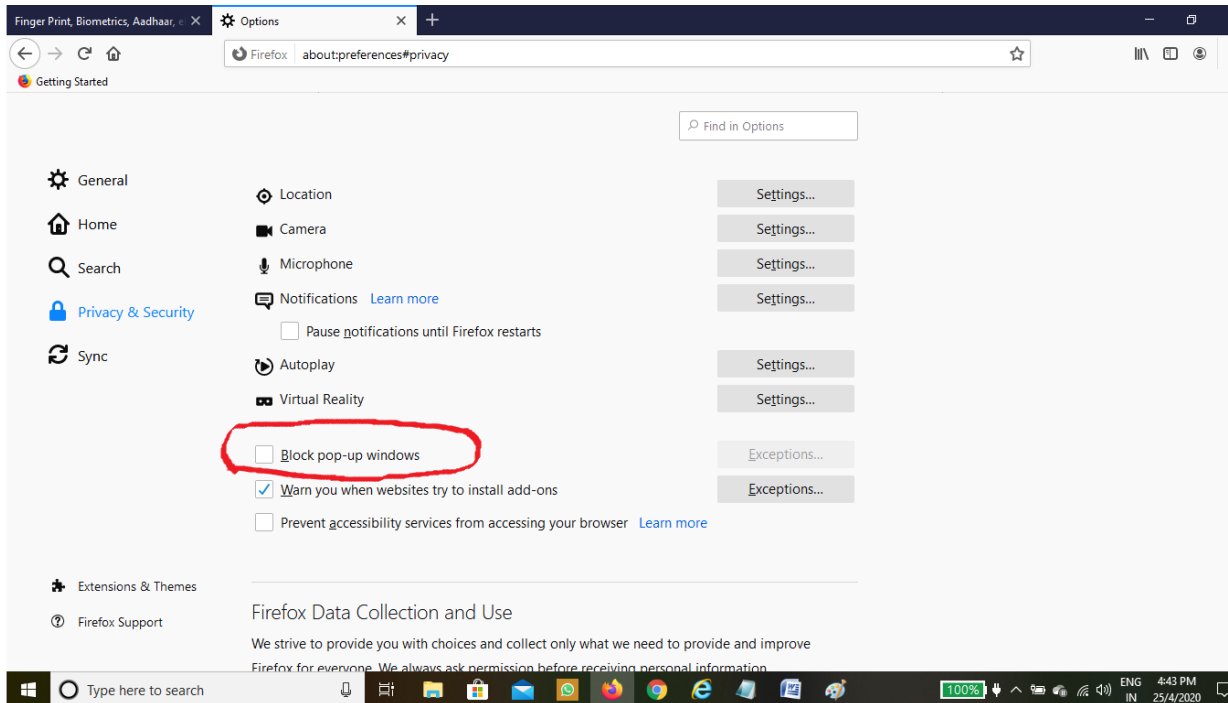

Then goto Mozilla menu option and then click on option

Then Click on Privacy & Security and click and scroll down and select Never Remember history from drop down option in History menu

Then again scroll down and it will ticked by default but you need to Un-tick the Block pop up option

Then close the browser and open it again and add the HDFC URL in Book mark Toolbar.

URL : <https://hdfc.figw.in/FiGateway/>

While entering the otp you will be able to three Biometric Device options you need to choose startek on that option for startek device.
